

SANITARY AUTHORIZATION: R.D. N° 6455-2020/DCEA/DIGESA/SA

DOMESTIC, INDUSTRIAL AND PUBLIC HEALTH USE

DISINFECTANT LIQUID

COMPOSITION

Glutaraldehyde	10 %
Benzalkonium chloride	8 %
Ethyl alcohol	5 %
Vehicle (deionized water)	77 %

PROPERTIES

BIO DROF G10, is a powerful broad-spectrum biodegradable disinfectant, whose synergistic action components are effective against grampositive bacteria, gram-negative bacteria, viruses, fungi and their spores. Excellent penetration power and prolonged action. Not irritating or aggressive odor and prevents damage to the surface of the disinfected materials

MECHANISMS OF ACTION

Its action has been attributed to the inactivation of enzymes involved in energy production, denaturation of essential proteins and rupture of the cell membrane, which increases cell permeability, thus producing cell lysis.

INSTRUCTIONS

BIO DROF G10, is indicated for use on inert surfaces in general for domestic use, working areas in industries in general, slaughterhouses or processing plants, stuffing plants, mills; premises and areas for collective use such as waiting rooms, cinemas, bars, hotels, hospitals, health centers, commercial areas, markets, warehouses, public cleaning places, small businesses, hardware stores, various installations, utensils and equipment in industries, internal and external disinfection of vehicles for public and private use.

APPLICATION DOSING

General disinfection: dilute 4 mL of **BIO DROF G10** per liter of water.

APPLICATION METHODS

Before application, wash the surface to be disinfected by removing organic matter. After use, it is necessary to rinse.

BIO DROF G10 can be applied by spraying, immersion or nebulization of the product diluted with tap water. It can be applied with conventional disinfection equipment or manually.

WARNINGS AND PRECAUTIONS FOR USE

Use industrial safety standards (use of goggles, mask, gloves, waterproof suit, etc.). Avoid direct contact of the product with the respiratory tract of the operator, eyes and skin. Use only in the recommended dosage, avoid mixing with other products. Do not eat, drink or smoke while handling the product. Ensure adequate ventilation during handling of the product. After handling the product, wash hands or exposed parts with soap and water; in addition to the clothes used.

FIRST AID

In case of accidental contact with eyes or skin, rinse immediately with plenty of water. In case of severe and persistent irritation, seek medical attention immediately.

In case of ingestion: do not induce vomiting, seek medical attention and show the product label.

POISON CONTROL CENTER

CICOTOX: Telephone (51 1) 328 - 7398.

Toxicity: Category III - slightly hazardous product.

PRESENTATION

Bottles of 100 mL, 250 mL, 500 mL and 1 L.

5 L gallon.

20 L drum.

210 L Cylinder

STORAGE

Keep out of the reach of children and domestic animals. Store the product in a cool and dry place, between 15 °C and 30 °C, protected from light, in its original, labeled and closed container.
