

SANITARY AUTHORIZATION: R.D. N° 2980-2020/DCEA/DIGESA/SA

DOMESTIC, INDUSTRIAL AND PUBLIC HEALTH USE

DISINFECTANT LIQUID

COMPOSITION

Glutaraldehyde	20 %
Benzalkonium chloride	30 %
Vehicle q.s.p.	100 %

PROPIEDADES

GLUTALTEK 2/3® is a disinfectant whose combination of glutaraldehyde and quaternary ammonium has a broad spectrum against gram-positive bacteria such as *Staphylococcus aureus*, *Bacillus subtilis*, gram-negative bacteria such as *Escherichia coli*, *Salmonella enterica*, *Pseudomonas aeruginosa* and fungi such as *Aspergillus niger*, viruses, among others.

MECHANISMS OF ACTION

Inactiva enzimas involucradas con la producción de energía, desnaturalización de proteínas esenciales y ruptura de la membrana celular, lo cual compromete la tensión superficial e incrementa la permeabilidad celular, produciendo así la lisis celular.

INSTRUCTIONS

GLUTALTEK 2/3® is suitable for use on inert surfaces, it can be used for the complete disinfection of premises and areas for collective use, such as waiting rooms, canteens, cinemas, bars, hotels, hospitals, clinics, commercial areas, markets, warehouses, public toilets, various installations, utensils and equipment of industries, disinfection arches for vehicles and disinfection of internal cabins of transport vehicles.

APPLICATION METHOD AND USE

The product is recommended to be applied by spraying, immersion and thermonebulization on the different surfaces and/or environments to be treated. Before applying it, the surfaces should be cleaned, removing organic matter or dust remains. Then it is necessary to rinse the surface.

Aspersión: 2 mL of **GLUTALTEK 2/3®** / 1 L of water on low contaminated surfaces and 4mL of **GLUTALTEK 2/3®** / 1 L of water for deep disinfection.

Thermonebulized: 1 L of **GLUTALTEK 2/3®** / 4 L of water

PRECAUTIONS FOR USE

During the handling of the product use industrial safety standards (use of goggles, mask, gloves, waterproof suit, etc.). Avoid direct contact of the product with respiratory tract, eyes and skin.

In case of accidental contact with eyes or skin, wash immediately with plenty of water. In case of severe and persistent irritation, seek medical advice immediately.

If swallowed: do not induce vomiting, seek medical attention and show the product label. After handling the product, wash hands or exposed parts with soap and water and clothing. Do not eat, drink or smoke while handling the product. Ensure adequate ventilation while handling the product. Avoid dispersion of the product in the environment.

SPECIAL PRECAUTIONS FOR DISPOSAL OF UNUSED PRODUCT OR WASTE MATERIALS

Any unused product or discarded material from the product must be destroyed in accordance with local waste management regulations.

WARNINGS AND CAUTIONS

- Use only at the recommended dosage.
- The concentrated product is corrosive.
- Avoid mixing with other products.
